

Don't You Ever Go

Charles Nicholls

How the days flew by so fast
And we thought that they would always last
Now you say you've found someone new
So I'll be left here with just dreams of you

Chorus A

*Don't you ever go no, no, no
Always be my friend
It's never too late no, no, no
Our love can always mend*

Saw those changes in your eyes
Kind words spoken have all turned to lies
So what can I do to make you stay
If you won't think about it anyway

Chorus B

*Don't you ever go no, no, no
Always be my friend
It's never too late no, no, no
Our love can always mend mend mend*

Middle eight

Used my love to set you free
Now you don't care what becomes of me
I'm turning blue while you fade to grey
So I'll just wipe my tears and turn away

Chorus B

Chorus A

Always be my friend
Always be my friend

Friend
Friend
Friend

DON'T YOU SOAR EVER GO

First Love

David Llewellyn

Long ago when love was just a dream
And your twinkling blue eyes
Were things I'd never seen
I'd have to close my eyes
To visualise a girl like you
A girl like you

Tomorrow when you lie close to me
And I tell you things you want to believe
Close your eyes be satisfied
With a man like me
A man like me
A man like me

Chorus

*Will you come back to me again
Will we be lovers or merely friends
So many things I do
Are all because of you
It's quieter now that you are gone
I miss you more than I can ever say*

Yesterday I only imagined you
And nothing I dreamed came close to being you
I had to close my eyes
To satisfy my dreams of you
My dreams of you
My dreams of you

Chorus

Chorus

FIRST LOVE

SOMERST, OH AND RHODE

Fool You

David Llewellyn

A bay window
Is all that you see
Of the day that passes by
Outside outside

Passionate primitive
Unrestrained you
Why don't you leave your room
Your room your room

Chorus

*Fool you
How could you say
I was the only one
For you for you*

My room takes me in
From the sun and the ice
Nobody knows but you
But you but you

Touching moving
Desolate you
Nobody knows it's true
Like you like you

Chorus

Middle 8

Chorus

*Fool you
How could you say
I was the only one
For you for you
For you for you*

For An Unknown Lady

David Lewellyn

I take your hand love
I look in your eyes
I see our future so clear
It's to love you forever and ever
Forever together
Your love is so near

Do you know that I miss you
Every night while you're sleeping
Are you dreaming of me?
That I speak to you softly and sweetly
In case you're listening
To the romantic me

Chorus

*I will love you forever
You're the one that I treasure
You're love it inspires me
I know that you love me
And I will love you forever and ever
You're the woman for me*

I imagine you sleeping
Dreaming so sweetly
I wish I was there
To tell you I'll love you forever
Together forever
To tell you I care

I take your hand love
I look in your eyes
I see our future so clear
It's to love you forever and ever
Together forever
Our future's so clear

Heart Of The Crime

Ian MacCarthy/Charles Nicholls

On the road ahead
There's a light that shines
Thoughts of her
Flashing through his mind
In the distance
In the distance

And the burning light
Brought a brand new day
But the winds of change
Wouldn't blow his way
In the distance
In the distance

Chorus

His love for her
Took a heavy toll
For the life she'd led
And the lies she'd told
He didn't listen

But he woke the night
With sheets of rain
With a rage in his heart
And her screams in his brain

Chorus

Chorus

The shadows break
On the dusty road
But his winding path
Isn't paved with gold
In the distance

As the moon shines down
On this aging man
Watching grains of sand
Slip through his hands
No forgiveness

Chorus

*All alone with the words she'd said
The scent of her body still in his bed
It's too late now to turn back time
It's a crime of the heart
And the heart of the crime*

I Fall

David Llewellyn/Ian MacCarthy

Don't be confused by your dreams
They're not drug induced
But don't walk the streets all alone
Late at night, at night

Don't be concerned by my wings
They'll take us high
Don't be too far from my side
As we fly, we fly

Chorus

*'Cause sometimes I fall
Out of the sky
And I run to you
Oh I run to you yes I do*

Bridge

I fall too fast
I catch your wind
It's mine, it's yours to choose
I watch you fly
I break your fall
You're mine
No time to lose

Middle 8

Don't be scared by this world
You'll be amazed
Take a breath then take my hand,
And come away come away

A million lights in your eyes
So dark the sky
So don't stay home tonight
When you can fly you can fly

Chorus

Chorus

Chorus

~ and i run to you ~

I Like It

David Llewellyn

I like it when you're sleeping
I like it when you've closed your eyes
I like it when you're dreaming
I start to feel so very cheeky I know
It's something I shouldn't do
But it's just something I'll have to explain to you

I like it when you're dancing
I like it to watch you slide across the floor
I like it when you're drinking
I start to feel so very cosy I know
It's something I shouldn't do
But it's just something I'll have to explain to you

Chorus

*But you won't catch me falling for you
Like so many others do
You've got a pretty face
And I can understand the way they feel
But they're all victims to you
I found out about your pretty face in time
We found out about your pretty face this time*

I like it when you miss me
I like it when you meet me after school
I like it when you tease me
I know you want me close to you I know
It's something I shouldn't do
But it's just something I'll have to explain to you

Chorus

Chorus

Forever

David Llewellyn

I like to be there to see you close your eyes
To stay awake until you fall asleep
This silly man is so in love with you
I think it's time for you to know

I like to be there I like to watch you sleeping
To stay awake just as long as I can
You crazy man I'm so in love with you
Forever and ever forever and ever
I'm in love I'm in love with you

I like to be here
To look into your eyes
To see the sweet looks you can't disguise
This silly man is so in love with you
Today I know you feel the same

Chorus

*How could I ever forget to say
That you're the reason I like
Each day and every night
You've got to know that I love you*

I like to be there
I like to know your secrets
To smile at you when you look at me
You crazy man I'm so in love with you
Forever forever forever and ever
I'm in love I'm in love with you

Chorus

*How could I ever forget to say
That you're the reason I like
Each day and every night
You've got to know that I love you*

In The Winter

David Llewellyn

Please come and see me in September
Seasons turning
Perfume's in the air
Left your touch on romance
Left your scent on everything
You're the one that I'm missing
You're the one I love
You're the one I love

Chorus

*Hold hold me close
And don't let go
Kiss kiss me sweet
And make it slow
And say you don't want to leave
Say you don't want to leave again*

Please come and see me in November
Don't you know me
I've loved you for so long
Years have past so quickly
Now meander through my dreams
I dreamed you called me Monday
With some love you found for me
With some love you found for me

Please come and see me in December
Fires burning
Snow is everywhere
And in my thoughts, my heart, my dreams
I try to summarise
You're the one that I'm missing
Now fades another year
Now fades another year

Chorus

IN THE WINTER

Into Magic

David Llewellyn

I watched the sunrise from a cliff top high
Because I chose to face beauty
I watched you wake
And then with a smile on my face
I told you all about all this magic

Chorus

*Then hand in hand we'd walk
Through the mist to the cliffs of chalk
And we'd look to France and talk about magic
Because we couldn't make sense of strangers in the morning
Or the feeling we were lying to ourselves
That we were all alone, just on our own
When we walked away from magic*

You gathered flowers from the field for me
Because you chose to give me beauty
We spread a rug beneath a mighty tree
From our backs we stared into magic

Chorus

Carefully from our fields of dreams we chose this place
Because we chose to live with magic
On sunny days or through the rain you'd see us play
Surrounded by all this magic

Chorus

Because we couldn't make sense of strangers in the morning
Or the feeling we were lying to ourselves
That we were all alone, just on our own
When we walked away from magic

It's Over

Charles Nicholls/Ian MacCarthy

Stranded in your world of wonders
A lonely sea that dragged me under
Saying that I cared just didn't matter

Lonely girl in search of winter
Those dancing shadows getting nearer
You tried to find yourself but lost the meaning

Chorus

*It's over I know you're not coming back
No more feelings falling for the same trap*

If holding dreams for cut-out heroes
Turned your real love back to zero
Then broken hearts will never be a problem

Hidden colours in your darkened world
Singing songs for a frightened girl
Looking for the chance to make things happen
