

# Juliette (I'm Waiting)

David Llewellyn / Ian MacCarthy

Juliette I'm waiting  
Across the tracks where the boys play pool  
I'll take you dancing 'til the sun starts shining

And Juliette I'm racing  
A red corvette with James Dean drivin'  
We're racing red lights all the way to Memphis

## **Chorus A**

*I'll take you where parents aren't hiding  
I'll take you where the dancing's dirty  
I'll take you where the subway lights aren't working*

## **Chorus**

*I'll take you where the drinks aren't legal  
Play the jukebox till the joint is empty  
Take you for a moonlight drive through 'Vegas*

Juliette I'm calling  
From way 'cross town where SOAR is playin'  
Slow dancing all night to "Natasha"

## **Chorus A**

## **Chorus**

*I'll take you where the nights are longer  
Eatin' burgers with the Fonz at Arnolds  
Go parking where the city lights are sparklin'*

Juliette I'm waiting  
Out the front of the all night cafe  
Maybe we can make-out at a drive-in movie?

## **Chorus A**

## **Chorus**

*We'll be drinking ice cream sodas  
At the local roadside diner  
Then we'll be driving all the way to Kansas*

## **Bridge**

Juliette, Juliette, Juliette

## **Chorus A**

## **Chorus**

*I'll take you where no one knows us  
Bonnie and Clyde we're there before us  
And we will have the life we dreamed of*

# Kansas Skies

Ian MacCarthy / David Llewellyn

The dark night echoes softly  
From faint whispers in the trees  
Repeating words she'd written  
From across the distant seas

A strangers touch may give me comfort  
Amongst the chill of life's debris  
But a moment's warmth won't stop confusion  
Unlock the past or calm the seas

## **Chorus**

*You know  
The winds of change blow through me  
And all I have has changed  
And all that is left  
I see in kansas skies*

## **Chorus**

I searched for her intentions  
Without a hint of past concern  
So I put aside her winter postcard  
Sit and watch the embers burn

My night turns into the light of morning  
As darkness weaves it's last goodbyes  
Then it lifts me up and sails me homeward  
Towards the painted Kansas skies

## **Chorus**

## **Chorus**

And all that is left  
I see in Kansas skies

# Listen To Your Tears

Ian MacCarthy

Well worn questions are asked each day  
Will she take his love or just turn away  
And will she ever let him know  
If she's going to stay or going to go

All alone at the break of day  
Wonderin' why she went away  
Could she see inside me or was she blind  
Why do they have to hurt and be so unkind

## **Chorus**

*You don't know what it's like  
To listen to your tears  
Laying awake all night  
Coping with your fears  
You don't know what it's like  
To listen to your tears  
Laying awake all night  
Coping with your fears*

Love's just a simple game for two to play  
But it only takes one to make the other pay  
Then there's nothing that will ever be the same  
And it never worries her she never feels the pain

## **Middle eight**

Love lies dying in fields of gold  
Fires that burned now ashes cold  
Could I make it through this darkest night  
Or walk the road into a beautiful light

## **Chorus**

*You don't know what it's like  
To listen to your tears  
Laying awake all night  
Coping with your fears*

# Living On The Moon

David Llewellyn / Ian MacCarthy

Up ahead I see a forest  
Flash a warning, flash a warning  
For the jungle that's burnt to it's knees

Out to sea I see the humpbacks  
Blow a warning, blow a warning  
For the whalers that sail  
As their harpoons impale  
While the whaling ships sail on bloody seas

On the gulf I see a darkness  
Bringing sadness, bringing madness  
As the waters turn black  
While their life blood's attacked  
And they all turn their backs on the spill

## **Chorus**

*There's no one to blame  
Six feet unders the same  
As living on the moon*

## **Chorus**

## **Middle 8**

Up ahead I see an iceberg  
Hear it groaning as its dying  
From the heat that's polluting our skies

Far away I feel the earth move  
Hear it moaning, hear it exploding  
As the ground opens up  
And the mountains erupt  
Watch the cities engulfed by the seas

On a field I see a soldier  
Tell a story, full of glory  
Of the lives that were lost  
And the future it's cost  
All that's done in the name of their gods

## **Chorus**

## **Chorus**

# Love Struck

David Llewellyn

Love struck at the end of ya life  
You've gotta think about survival  
If you'd learned the truth long ago  
Would you have left

There's nothing wrong  
With feeling that way  
You'll soon find out  
She's not about to change

Time waits for no man's confession  
All you do is take your chances  
If you were told long ago  
Why didn't you confess

There's nothing wrong  
With feeling that way  
You'll soon find out  
She's not about to change

## **Chorus**

*Crazy child livin' on dreams  
The world's all the things it always seems  
All the times you hurt me friends  
I can't begin to ever mend*

Long time since I thought of death  
You haven't been here to remind me  
Maybe I'll take the easy way out  
And leave all this behind me

There's nothing wrong  
With feeling that way  
You'll soon find out  
She's not about to change

## **Chorus**

# MARY

*real and pretending*

## Mary

David Llewellyn

You're sleeping still  
I'm trying to catch your eye  
A lovers wait  
For what the night inspired  
Beginnings and endings  
Real and pretending

The sun arrives  
To brighten up your room  
With a warm embrace  
On flesh the day reveals  
Touching not stopping  
Talking never ending

### **Chorus**

*Listen softly  
To the last words I wrote  
The story ends  
This song will too  
But it was something to learn  
With changes and distance  
I still remember well  
When you and I were twenty four*

Persuaded fate  
To let the day grow long  
But twilight lingers  
On doubts we can't escape  
Thoughtful and restless  
Longing for the answer

Verandah lights  
Burn until the morn  
A dreamers wait  
For a knock that's never heard  
Beginning and ending  
Real and pretending

### **Chorus**

*Listen softly  
To the last words I wrote  
The story ends  
This song will too  
But was something learned  
With changes and distance  
I'll still remember you  
When you and I are eighty four*

# Michelle

Charles Nicholls / Ian MacCarthy

I remember the first time  
That you called my name  
It felt like the roses  
Had blossomed again

I remember the first time  
That you held my hand  
It seemed like forever  
As we walked on the sand

## **Chorus**

*Oh Michelle*

*I wish you were mine*

*I search for the words*

*That I can't seem to find*

*Oh oh oh oh*

I remember the first time  
That we were alone  
We danced through the hours  
To places unknown

I remember the first time  
That we fell in love  
We we're watching the sunset  
And the stars up above

## **Chorus**

I remember the last time  
When you said goodbye  
Now there's tears on your flowers  
That fell from the sky

## **Chorus**

**Chorus**

I remember the last time  
I remember the last time  
I remember the last time  
I remember the last time  
I remember the last time  
I remember the last time

# Mystery Girl

Charles Nicholls / David Llewellyn / Ian MacCarthy

## **Chorus**

*Wish I could meet a girl like that  
Wish I could meet a girl like that  
Wish I could meet a girl like that  
Wish I could meet a girl like that*

I've been home half the night  
She's a bad, bad girl  
She's such a bad, bad, bad, bad girl  
Whatever she's doing she ain't doing it with me

## **Chorus**

## **Bridge**

I've been sitting up half the night  
Waiting for her to call me  
I've been sitting here  
Waiting for her call  
But I don't want to fight  
I just want to talk with her  
But she's a mystery to me (she's a mystery)  
She's a mystery girl (she's a mystery girl)

## **Chorus**

She hasn't been home all the night  
She's a bad, bad girl  
She's such a bad, bad, bad, bad girl  
Whatever she's doing she's ain't doing it with me

## **Bridge**

I've been sitting up half the night  
Waiting for her to call me  
I'm just waiting here  
Sitting by the phone  
But I don't want to fight  
I just want to talk with her  
But she's a mystery to me (she's a mystery)  
She's a mystery girl (she's a mystery girl)

## **Chorus**

## **Chorus**

## **Chorus**

# Natasha

Charles Nicholls / Ian MacCarthy

Natasha please won't you stay  
Natasha until the break of day  
Natasha I was alone until I met you

Natasha don't ever go now  
Natasha I need you so now  
Natasha

## **Bridge**

Oh I want you so much  
Please don't make me blue  
Words aren't enough  
So I give my love to you

## **Middle 8**

Natasha I've fallen so fast for  
Natasha our love has to last 'cause  
Natasha

## **Bridge**

I've longed for your touch  
Those beautiful eyes  
Now I want you so much  
Do you realise I love you

Natasha I've fallen in love with  
Natasha the best thing in my life is  
Natasha

## **Bridge**

I've longed for your touch  
Those beautiful eyes  
Now I want you so much  
Do you realise I love you

Oh Natasha  
Oh Natasha  
Oh Natsaha

# Never Let You Down

Ian MacCarthy

As the sunlight fades away  
And the moon comes into play  
I close the door and go outside  
And look for reasons to deny

## **Chorus**

*And I'll never let you down  
Never let you down  
Never let you down  
Oh no no no no no*

As the cool breeze clears my mind  
I still believe that I will find  
The way to finally make her see  
What she's always meant to me

## **Chorus**

It never ceases to amaze  
How loves faithful seem to stray  
Or vanish without a trace  
Once they've gone and won the race

## **Chorus B**

*And I'll never let you down  
Never let you down  
Never let you down  
Oh no*

## **Chorus B**

## **Chorus B**

## **Chorus B**

# Not The Girl

Ian MacCarthy

Turn around turn around  
Turn around turn around

I tell myself don't be mad  
I tell myself don't be sad

## **Chorus**

*'Cause she's not the girl she said she was  
Not the girl you hoped she would be  
Not the girl but you thought she was the one*

I tell myself watch out son  
I tell myself they're all around

## **Chorus**

You've got both feet on the ground  
You've got both feet on the ground  
You've got both feet on the ground  
You've got both feet on the ground

I tell myself hold on tight  
I tell myself it'll be alright

## **Chorus**

You've got both feet on the ground  
You've got both feet on the ground  
You've got both feet on the ground  
You've got both feet on the ground  
You've got to turn around  
Both feet on the ground  
You've got to turn around

Turn around turn around  
Turn around turn around  
Turn around turn around  
Turn around turn around

# Now And Forever

David Llewellyn

I never thought that things would change  
Never dreamed I'd meet a girl like you  
Never dreamed that you would want a part of me  
Never dreamed  
Never dreamed  
No never dreamed at all

Lost inside a tired heart  
Fighting hard to love my life  
Always seemed that you were someone else's girl  
And half my life  
Half my life  
Half my life was spent like this

## **Chorus**

*I've been searching for you for so long  
I like the things you do to me sometimes  
When you smile I see some consolation  
For all the years it took me to find you  
I feel your heartbeat  
I sense your desire  
I know that you love me  
Now and forever*

Caught between a fire and flood  
Balanced on the edge of dark  
I gathered dust until the winds of change brushed past  
It's all I dreamed  
All I dreamed  
It's all I dreamed this thing called love

## **Chorus**

## **Chorus**

Now and forever
