

A Girl Like You

David Llewellyn

You say you're leaving me today
Just a day since you told me you'd love me always
Just a week since you and I made perfect love all day
Now you're going away (going away)
Going away (going away)

Chorus

*Should have been wary of a girl like you
Those sultry sighs, midnight lullabies
All designed to drive me crazy*

Waited home all day for you
To drop on by or make a call just to say hello
Stayed up late thinkin' about you
But now I know it's true
You're going away (going away)
Going away (going away)

You said you needed time alone
Time to think, to reminisce about the sweet things I do
How I miss the special bliss
That comes from loving you
You're going away (going away)
Going away (going away)

Chorus

And if you want to come back soon
I'll be here, I'm still waiting for you

You say you're leaving me today
Just a day since you told me you'd love me always
Just a week since you and I made perfect love all day
Now you're going away (going away)
Going away (going away)

In The Clouds We'll Speak

David Llewellyn

Silent are these city streets
No pounding waves on my door
No words to speak to a heart that beats
In my life no more

What did I say to make you leave me
After all the times you forgave me

Chorus

*High up above in the clouds we'll speak
Too many years but I will see you then
And I can love again
Ooo oo oo*

Faintly spoke her farewell words
Now echoing loud and clear
A glimmer of hope I thought I heard
Silenced by my tears

I remembered the sounds of laughter
Her face in my hands as I kissed her

Chorus

Gentle was my friendly hold
Falsely braved my practiced smile
And as she turned away my world went cold
And my head spun hurt and wild

I remember the touch of her fingers
On my cheek as she was leaving

Chorus

All The Times

Charles Nicholls/Ian MacCarthy

All the times we shared together
All the times we shared apart
Remember when you said you loved me
Those words still echo through my heart

All the dreams we made together
All the dreams we thought were ours
Now lie shattered in the darkness
With lonely tears and wasted hours

Chorus

*Ooh na na na na na whoo
Ooh darling*

3. All the times we shared forever
All the times we shared are gone
Times of love and understanding
Wonderin' why it all went wrong

Chorus

*Ooh na na na na na whoo
Ooh darling*

Chorus

*Ooh na na na na na whoo
Ooh darling*

Blind Me

David Llewellyn

Weren't we just friends
Walking along a beach
Weren't we just lovers
For a night or two
Then one day I saw
Deeper than before
And something inside you
Just blinded me

Chorus

*Don't let your love blind me
Reach into your heart
And let it guide me
Back to you
Don't let your heart find me
Torn between two lovers
Drawn to someone new
Someone not you*

What was before
Was just the clothes we wore
To make us seem unbreakable
So what made us think
We needed more than this
What made the truth inconceivable

Chorus

Weren't we just young
Living for the day
Weren't we in love with everything
And weren't we just friends
Lovers in the end
Who fell in love accidentally

Chorus

Brindabella

David Llewellyn

You know it's not so clear you know there's lots to fear
About you coming back about you coming back

I know you're insecure I know you're not so sure
But it's all the same yes it's all the same to me

Chorus

*Been a year this monday
It's almost over someday
But I've been letting go so slow
But when the snow falls in the brindabellas
And the wattle blooms in the yard
I'll be thinking of you thinking of you thinking of you again*

You know I'm holding back, I know you don't fall for that
But its all the same yes its all the same to you

Chorus

*It's been a year this monday
It's almost over someday
But I've been letting go so slow
And when the snow falls in the brindabellas
And the wattle blooms in the yard
I'll be thinking of you thinking of you thinking of you again*

Chorus

*And when the snow falls in the brindabellas
And the wattle blooms in the yard
I'll be thinking of you thinking of you thinking of you again*

Chorus

*And when the snow falls in the brindabellas
And the wattle blooms in the yard
I'll be thinking of you thinking of you thinking of you again*

I Called You On The Phone

Nicholls, MacCarthy & Llewellyn

Chorus

*I called you on the phone
But you weren't at home
Tell me why, tell me why
I've been knockin' on your door
Till my hands were sore
Tell me why, tell me why*

Did I know where I was going
When I saw the river flowing
Was I swept into a world of borrowed tunes
Am I just a person laughing
On the eve of man's existence
And I can't get a feed
No I can't get a feed

Chorus

Is it just my past that's calling
To a bird that's gently soaring
Across the sky on wings of broken dreams
Or are you just a girl that's falling
For a voice that's softly calling
And you can't see the light
No you can't see the light

Chorus

Were you just a girl who's lying
Through her eyes of desperation
Are you just some words still searching for a song
Does it feel like you're presented
With a life that you've invented
And you won't change your mind
No you won't change your mind

Chorus

Chorus

Can't Forget The Day

Charles Watson

I can't forget the day that I let you go away
You were once so close to me the way we were supposed to be
I know I was to blame now I can never be the same
I just hang my head in shame when I hear your name
I need you oh so much I long for your touch
If I could only let you know how much I need you so

Chorus

*But it's too late now still I hope somehow
I could be with you again
I was such a fool I tried to play it cool
I set you free and now I feel the pain*

I need you oh so much I long for your touch
If I could only let you know how much I need you so
I was really blind to treat you so unkind
Now that you are gone I just can't carry on

Chorus

*I've searched near and far wondering where you are
Will I ever see you again
I was such a fool I tried to play it cool
I set you free and now I feel the pain*

Bridge

You'll always be a part of me
Even though you broke the heart of me

Middle eight

I know I was to blame now I can never be the same
I just hang my head in shame when I hear your name
I need you oh so much I long for your touch
If I could only let you know how much I need you so

Na na na na
I need you always
I need you always
I need you always
I need you always

Cry The Lucky Country

David Llewellyn

I see your sunburnt country
I see your ragged mountain range
I know you're old men but brave men
I know they hate to see it change

I see your far horizons
I see your jeweled sea
I hear lots of people saying
Your wide brown land's
A place of dreams

Chorus

*Holding you close in my dreams
Holding onto you holding onto you
Sometimes now it seems
You're just a dream that's gone bad
Holding on too long too long too long
Sometimes it seems yeah
You're just a dream yeah
Holding onto you
Holding onto you
You're a dream
I'm taking you back in my arms
You're a dream
I'm taking you back*

They say you are the lucky country
They say your people are unique
But I say cry lucky country
How do the politicians sleep

I see your leaders in their mansions
I watch their pompous masquerades
I see them lining their pockets
Saying this country is to blame

Chorus

CRY!

the lucky country

Crystal

David Llewellyn

A crystal clear image thirty years on
Time capsuled memories when you and I were young
Time didn't age me or turn my hair grey
Lies like these and other dreams are all that's left of spring

A teenage diary stored in a box
Dust covered witness to things which are lost
Time didn't matter when we were young
Goodbyes like this the things I'll miss are all that's left of spring

Chorus

*And if I'm not there when your autumn comes around
My winter's come and I am done no more memories to share
Ooh ooh ooh
Ooh ooh ooh*

A wedgewood locket close to your heart
A precious note hid from a boy who won your heart
Change didn't frighten or the world erupt
Lies like these, my fantasies, are all that's left of spring

Chorus

*And if I'm not there when your autumn comes around
My winter's come and I am done no more memories to share
And if I'm not there when your autumn comes around
My winter's come and I am done no more memories to share
Ooh ooh ooh
Ooh ooh ooh*

CRYSTAL

Did I Ever

David Llewellyn

Were you ever
Under my spell
Hanging on every word

And did I ever
Promise the world
And say I would never leave?

Chorus

*It was mad
It was fun
And we always seemed
Like we the lucky ones
We had it all
In the palm of our hands
Our hands*

And in the summer
As we walked on the sand
Our winters seemed far away

And in the winter
Through all of it's snows
Our love began to slow

Bridge

See I'm thinking of you still
And I'm holding onto some dreams
And I'm not half the man I want to be
Without you in my life
There is little left for me

If you could change it
In the autumn of our love
Would you just say

Chorus

Chorus

Do You Remember Me

David Llewellyn

Do you remember me
I captured your heart one night
I spoke in tongues
About a love you'd never known
You said you'd like to stay with me
To practice the art of love with me

Chorus

*Oh I remember oh I remember
Loving you before I even got to know you
Loving you still only goes to make me lonely
I just remember things too well to ever forget you girl
You're the sweet day slowly disappearing
From my life from my life from my life*

Do you remember me
I sang to you sometimes
I sang the songs
I knew would make you cry
You said I knew the world so well
You loved me so but would never tell

Chorus

Do you remember me
I wrote to you for years
I wrote about the earth
The sky and everything between
You said you'd like to live with me
It was like you'd known me all your life

Chorus

Loving you still only goes to make me lonely
I just remember things too well to ever forget you girl
You're the sweet day slowly disappearing
From my life from my life from my life

DO YOU REMEMBER ME!
